

GOVERNMENT OF INDIA
MINISTRY OF HEAVY INDUSTRIES
LOK SABHA
UNSTARRED QUESTION NO. 2539
ANSWERED ON 16.12.2025

SETTING UP OF EV CHARGING STATIONS UNDER FAME IN HARYANA

†2539. **SHRI JAI PARKASH:**
SHRI SATPAL BRAHAMCHARI:

Will the Minister of HEAVY INDUSTRIES be pleased to state:

- (a) whether the number of existing EV charging stations and the process of setting up EV charging stations under FAME (Faster Adoption and Manufacturing of Electric Vehicles) scheme is very low/slow in Hisar and Sonipat Lok Sabha constituencies respectively;
- (b) if so, the number of public charging stations approved in the region so far and actually operational among them;
- (c) whether lack of charging network on urban and rural routes is hindering the use of e-vehicles and whether any roadmap has been formulated in coordination with the Haryana Government to expand the EV charging network in the region;
- (d) whether the Government has formulated any incentive policy financial assistance or pilot project to increase private sector participation in setting up charging stations;
- (e) whether there is any concrete action plan to make Hisar the regional EV charging hub of Haryana and to make Sonipat an EV-friendly zone in the future; and
- (f) whether projects are stalled in Municipal Council and Highways areas due to lack of land allotment and electricity connection?

ANSWER
THE MINISTER OF STATE FOR HEAVY INDUSTRIES
(SHRI BHUPATHIRAJU SRINIVASA VARMA)

(a) & (b): The Oil Marketing Companies (OMCs) have installed 45 EV public charging stations (EVPCS) in Hisar and 22 EVPCS in Sonipat under FAME-II scheme out of which 36 EVPCS in Hisar and all 15 EVPCS in Sonipat have been commissioned.

District	No. of installed EVPCS under FAME-II	No. of Operational EVPCS under FAME-II
Hisar	45	36
Sonipat	22	15
Total	67	51

(c): No such assessment has been carried out by Ministry of Heavy Industries (MHI) so far.

(d): The Ministry of Power has issued “Guidelines for Installation and Operation of Electric Vehicle Charging Infrastructure-2024” on 17.09.2024. These guidelines emphasize the role of public-private partnerships in expanding the EV charging infrastructure. Setting up of EV charging stations (EVCS) is an unlicensed activity and private entities are free to setup EVCS across India.

(e): MHI has no such plan at the moment. However, MHI has also made an allocation of Rs.2,000 crore under the PM E-DRIVE Scheme for installation of EVPCS on a pan-India basis.

(f): As per information received from OMCs, out of 67 EVPCS installed by OMCs in Hisar and Sonipat under FAME-II, 16 EVPCS are not commissioned yet due to non-availability of electrical connection.
